Assessments

A prerequisite for new students or current students enrolled in the junior program

Student assessment is an important and valuable tool for documenting player development and for goal setting.

Assessment #1 is a mandatory technical evaluation. Players must schedule an appointment to have each essential stroke filmed from three different angles, complete two tests of their technical skills, and complete a goal sheet. Players will receive a personalized training tape. The video will be a narrated slow-motion analysis. Each "take home" video will be sent as a private YouTube clip.

The tape will have two parts: 1) slow motion with technical information, and 2) classroom presentation reviewing the prescribed changes and homework. Upon viewing the video three times, the player must email simplified notes to the instructional staff. The process documents development and assigns accountability for both the player and instructional staff. Fee: \$125

Please note: Only total beginners are exempt from this process.

Adults interested in "training like a junior" follow the same procedure and then be welcome to train within the junior program.

Assessment #2. The service is to capture match play on film and then provide a tactical analysis.

Fees

Assessment 1: \$125

Assessment 1 & 2: \$225
